Water Filtration	Throw-Away Filter Bags
Handle Height	Adjustable
Amperage	Same
Warranty	Same
Versatility	Walk behind and push ahead
High-Pressure Option	No
Dual-Discharge Option	Yes
Stair/Furniture Tool Attachment Available	Yes

Chemicals

Here's what some professional carpet cleaners are saying ...

"We have 3 Demons in use all the time, and yes they can deliver 4 gallons per minute, recover 94% and have carpets dry in 1 to 2 hours max. Best portable we have ever used in our 35 years in this business." Chris Eldred

"It works great on residential as far as the final result. I think it will out clean many truckmounts.... It may be one of the best systems." Jeff Williams

"I've heard nothing but great reviews of the Steamin Demon from all [whom] I've spoken with." Scott Hosner

The Steamin Demon is recommended by Shaw Industries, the world's largest manufacturer of carpet:

"For more than a year Shaw internally and externally evaluated the Steamin Demon. During internal tests at Shaw's Technical Services Laboratory, the machine performed well. Also, as you know, we have followed closely the performance of the Steamin Demon in actual field applications. Here, the Steamin Demon performed very acceptably.... The carpet cleaning industry needs new ideas and new technology. It looks like you've accomplished these with the Steamin Demon" Carey Mitchell, Director, Shaw Technical Services, and William H. Doan, Vice President, Shaw Product Care.

Hose Reels (for large facilities)

Whether you are a professional carpet cleaner, a facilities supervisor or a building service contractor, the Steamin Demons can provide you with superior performance at an affordable price.
